## Opportunity for Health Awareness Courses & Educative Classes

*As a part of it's objectives, I-SERVE is launching awareness and educative programs in Indian Health Sciences, for the benefit of the people in general. These courses would not only help in creating awareness of life style in preventing illness, but also would help in developing skilled man power to assist medical professionals , corporate holistic healing centers, herbal pharmaceuticals , cosmetic clinics , pancha karma centers , Ayurvedic medical practitioners etc., The courses are designed for students and general public.*

### Courses for students

- **Certificate courses** for 10<sup>th</sup> passed candidates
- **Diploma courses** for 10+2 biological sciences passed candidates
- **PG Diploma courses** for biological sciences graduates passed candidates

*I-SERVE is in the advanced stage of getting these courses conducted in collaboration with one of the top open universities of AP, so that University certificates can be awarded to those who qualify themselves in the above courses.*

### Educative Classes for general public

*With an intention of educating the general public and improving the intellectual caliber of the students, "Educative Classes" are planned on the following subjects –*

- Vedic Mathematics
- Easy methods of Sanskrit Learning
- Yoga classes – separately for ladies & gents
- Seasonal health problems
- Health problems of the children
- Health problems of the professionalists
- Women health problems
- Old age health problems
- Geopathic stress in the residential houses and individuals

**(Successful candidates will be awarded with certificates by I-SERVE)**

2. Date of Birth : .....
3. Address (Full Postal) : .....
4. Phone No: .....
5. E-Mail ID:.....

**About I-SERVE - I-SERVE (Institute of Scientific Research on Vedas)**, founded by Prof.K.V.Krishna Murthy, founder Chairman & Managing Trustee, was established in 2004 with the divine command & blessings of His Holiness Sri Sri Ganapathi Sachchidananda Swamiji. It is a scientific research institute dedicated to dig out the scientific & technical details of Vedic sciences, by decoding ancient Indian literature, for sharing the research revelations, for making the people to practice and for developing the society to reach the ultimate goal of universal peace, health, happiness and prosperity. It is registered as a charitable non-profit making Trust by a group of scholars & scientists, well versed both in ancient and modern sciences. It is recognized as a SIRO (scientific and Industrial Research Organization) by DSIR (Dept of Scientific & Industrial Research, Ministry of Science & Technology, Govt. of India).

The Income Tax Department also recognized it as a scientific organization and granted I. T. exemption U/s. 35(1)(ii) of I. T. act, so that **the donors of I-SERVE get weighted deduction upto 175%**.

The Institute aims at presenting a nature friendly, non-hazardous and not-polluted science. The beneficiary of this research work will be the whole mankind, without any barricades of region, religion, caste, creed or sex.

Awareness about the scientific concepts of Vedic literature is gaining momentum world over. In fact, Vedas in general and Ayurveda in particular, are rich in scientific content, apart from philosophical, poetical and other aspects. Due to historical reasons, known to all, scientific aspect of the Vedic literature, i.e., rich treasure of Sanskrit language text books, where hidden Vedic techniques were embedded, has taken a back drop. As a result, there was a breakage of tradition in the study of Vedic sciences and their technical details. Although a small number of such books is available today, the research reveals that the science and technology developed by ancient Indian scientists is perfectly pollution-free, eco-friendly, non-hazardous and meets today's demands. Since the present day advancement of modern science is facing problems, today's mankind needs a science, which can resolve these problems. A sure hope in this regard prevails in the Vedic sciences and Vedic technologies. It is with the aim of bringing out the nature friendly Vedic sciences and their technical details for the benefit of the humanity at large, **I-SERVE** team has formed.

**I-SERVE** is presently running a free dispensary, where Ayurvedic and Allopathic services are offered by eminent physicians and surgeons. Apart from this, I-SERVE is conducting many society linked scientific programmes. Based on its research, it has published several books, souvenirs, magazines, CDs etc.

**Venue of the Classes:**

The proposed classes and courses will take place in the "**I-SERVE study Centre**", located at H.No. 2-4-165, Road No. 14, Snehapuri colony, Hyderabad- 500035, Ph.No: 040-24033296 (Just behind the Venkateswara Temple of Snehapuri Colony). Medium of instruction is Telugu & English.
